

Why Support Performing Arts Education?

Since the beginning of civilization, the performing arts have fulfilled different needs for communities around the world.

For the performer or creative artist who participates in the performing arts, they provide new and dynamic channels for communication with society.

For the student, theatre education provides a wealth of new perspectives and plenty of healthy activity. We need that today. **MORE THAN EVER!**

A Message From the Board

Aloha Friends,

In 12 years, Hawaii Children's Theatre (HCT) has educated over 4000 students, performed locally for audiences totaling more than 100,000, and internationally for over 50,000!

A percentage of the funds raised goes to student scholarships, enabling deserving students on our Island to study the performing arts, who would not, otherwise, have the opportunity.

Please consider a partnership with HCT, to underwrite community theatre programs addressing a variety of children's issues.

HCT is poised to maximize its potential in this new millennium as one of the largest children's theatre programs in Hawaii, and the only year-round program for elementary students on Kauai.

We are proud to be among the local theatre groups that make a significant contribution to the cultural fabric of this wonderful Island of Kauai.

Your support is a direct investment in the future viability of our community and in the quality of life and learning for our keiki.

Sincerely,

The HCT Board of Directors

We are a theatre and a school!

Our year-round programs provide opportunities for all ages of students at all levels of ability. Talent is not the number one ingredient. Our curriculum is designed to develop life-skills such as confidence, critical and creative thinking skills, cooperation and teamwork, and artistic sensitivity. Acting training is a by-product. Hawaii Children's Theatre is a place where students create, and through creating, learn about themselves, their ideas, and their relationship to others.

We Value:

- ◇ The opportunity to educate children in theatre arts
- ◇ The right of any student to participate in theatre
- ◇ The excellence that results from this involvement.

We Believe Together We Can Create:

- ◇ Equal opportunities for all Kaua'i keiki.
- ◇ Expanded imaginations
- ◇ Cultural community development
- ◇ Expanded personal horizons and global vision.
